 Unit E-479 E. Rodriguez Sr. Ave., Brgy. Immaculate
Conception, Cubao, Quezon City, Philippines

We are pleased to inform you that DDC COOLMAKERS & POWER BUILDERS CORP formerly known as DC COOLMAKERS & POWER BUILDERS CORPORATION is a duly registered business enterprise with the Securities & Exchange Commission (SEC) with Registration No.: CS2013320141, office address at Unit E-479, E. Rodriguez Sr. Ave., Corner EDSA & Aurora Blvd., Brgy. Immaculate Conception, Cubao, Quezon City formerly at No. 19 - B Kamias Road, Brgy. Pinyahan, Quezon City, Philippines in 1985.

Our firm is engaged in supply and installation of Refrigeration and Air-conditioning System. Our company has technical expertise to handle Electro-Mechanical Contracts. We have successfully completed major standards projects with a strong team of professionals in design, estimate, engineering, supply, installation, management, testing, commissioning, maintenance and support services.

In addition, the firm is also engaged in cold storage, ice plant, equipment installation, service operation and maintenance of the same. We have complete tools, equipment and facilities which may be necessary and useful as required in carrying out our business objectives.

At present, with the trust and confidence of our customers in terms of quality, service, workmanship, and having earned substantial growth in the business and capitalization, DDC COOLMAKERS & POWER BUILDERS CORP is not only engaged in Refrigeration, Airconditioning, Ventilation, Electro-Mechanical works, PABX, Structured Cabling, Fire Protection, Dealership, and Maintenance but Refrigeration and Airconditioning (HVAC) supply as well.

In the pursuit of these objectives, we are offering our clients expertise in the following fields:

Design, Estimate and Supply of Complete Mechanical, Electrical, Plumbing and Sanitary and Fire Protection System

• **MECHANICAL**

- Supply and Install of the following Airconditioning System
 - Split type Air Conditioning Unit (inverter/basic)
 - Air Handling Unit
 - VRF (VARIABLE REFRIGERANT FLOW) VRV
 - Chilled water fan coil unit
 - Precision type air conditioning system
 - Centralized Air Conditioning
 - Chiller/chilled water piping
 - Insulation of Cold Storage
 - Refrigeration Equipment/Cold Room
- Design and Build of Ducting and Ventilation System
- Preventive Maintenance

• **ELECTRICAL**

- Supply and Installation, Design and Build:
 - Wires and Cables
 - Lightings & Wiring Devices
 - Busduct System
 - Electrical Equipment (Switchgears, Panelboards, ECB, Transformers and Generators)
 - Grounding and Lightning Protection System

• **PLUMBING AND SANITARY**

- Supply and Install:
 - Downspout and Storm Water Drainage
 - Sewer & Vent Piping
 - Hot & Cold Water System
 - Waste Water Drainage System
 - Viaduct Drainage System

• **FIRE PROTECTION SYSTEM**

- Supply and Install:
 - Automatic Fire Sprinkler System
 - Inert Gas, Clean Agent and Specialty Suppression System
 - Fire Hose Cabinets and Portable Fire Extinguishers
- System Design and Configuration, Installation, Programming and Commissioning, Preventive Maintenance, System Upgrade of Fire Detection and Alarm System

Design, Estimate, and Supply of Complete Auxiliary Systems

◦ Supply, Installation, Configuration, and Maintenance of:

- Structured cabling for Telecommunication Systems
 - Cables: Fiber and Copper
 - Conduits: PVC, EMT, IMC, and RSC
 - Network Elements: Routers, Switches, Access Points, Data Cabinets, UPS, Thermal Management
- CCTV/Security Management System
- Electric Vehicle Charging and Parking Canopy Construction
- Solar Panels and Controllers
- Wireless Microwave Radio Network
- Building Management System
- Fire Detection and Alarm System
- Public Address and Background Music Systems
- Audio-Video Entry Phone/Intercom System
- CATV/MATV
- Bedside Control Panel (Room Automation System
- Security and Access Control Construction Services
- WMS (Wireless Management System)
- Metal and Acrylic Fabrication

DDC COOLMAKERS AND POWER BUILDERS CORP.

Our business structure is strengthened and completely manned by highly qualified and competent engineers, who are experts and specialists in Air conditioning, Refrigeration, Electro-Mechanical, Design, Estimate, Construction, Installation, Repair and Service and a sufficient pool of Technicians and Mechanics. We are here to supply and service the growing market & and technology needs, as well as to give all the assistance needed to make the benefits available to our increasing number of clients.

We cater to the needs of our highly valuable customers, like malls, schools, hospitals offices, banks, restaurants, hotels condominiums industrial parks & other institutions.

Thank you very much for giving us this valued opportunity.

Very truly yours,

DDC COOL MAKERS & POWER BUILDERS

MISSION

DDC Coolmakers & Power Builders Corp. stands with an unwavering commitment to cater to the needs and desires of our valued clients, reaching heights beyond mere satisfaction. Providing the highest quality, dependability, and operational efficiency.

We pledge to exceed expectations and set new standards of excellence.

VISION

- We exist to provide clients with tailored solutions rooted in trust, embarking on a journey where satisfaction knows no bounds.
- Our commitment lies in delivering top-notch service that redefines efficiency, reliability, and value, setting new industry benchmarks.
- With a team of dedicated experts, we stand by your side, offering comprehensive post-sales support, repair, maintenance, and unwavering guidance.
- Our skilled professionals in project management, technical support, sales, and maintenance are here to fulfill your every requirement.

HISTORY

A BRIEF STORY ABOUT THE COMPANY

“Customer Satisfaction is Job No. 1.”

This is the creed that we intimately adhere and perpetrate ourselves to. Thus, five (5) individuals, each a professional in their own rights, sharing the same commitment formed of what is known today as DDC COOLMAKERS & POWER BUILDERS CORP. Formerly known as DC Coolmakers and Power Builders Corporation, it started its operation in 1987 with a minimal capitalization, hand and service tools and with only one technician. Slowly but surely, it has transformed itself into a progressive unit so that in 1998 it has transferred to a bigger work area at No. 19 - B Kamias Road, Brgy Pinyahan, Quezon City. Presently, at Unit E-479, E. Rodriguez Sr., Ave., Corner Aurora Blvd., Edsa, Cubao, Quezon City.

The turn around was so much appreciative, as it came earlier than expected. Having earned substantial growth in the business and capitalization, it has diversified its business operation by putting up Club & Restaurant in 1993 , a General Contracting Company, DCCi General Construction Company and eventually, in 2011 Renz Refrigeration & Air conditioning Supply Store. Now, ZAi Trucking Services. As the saying goes, “hard work pays”.

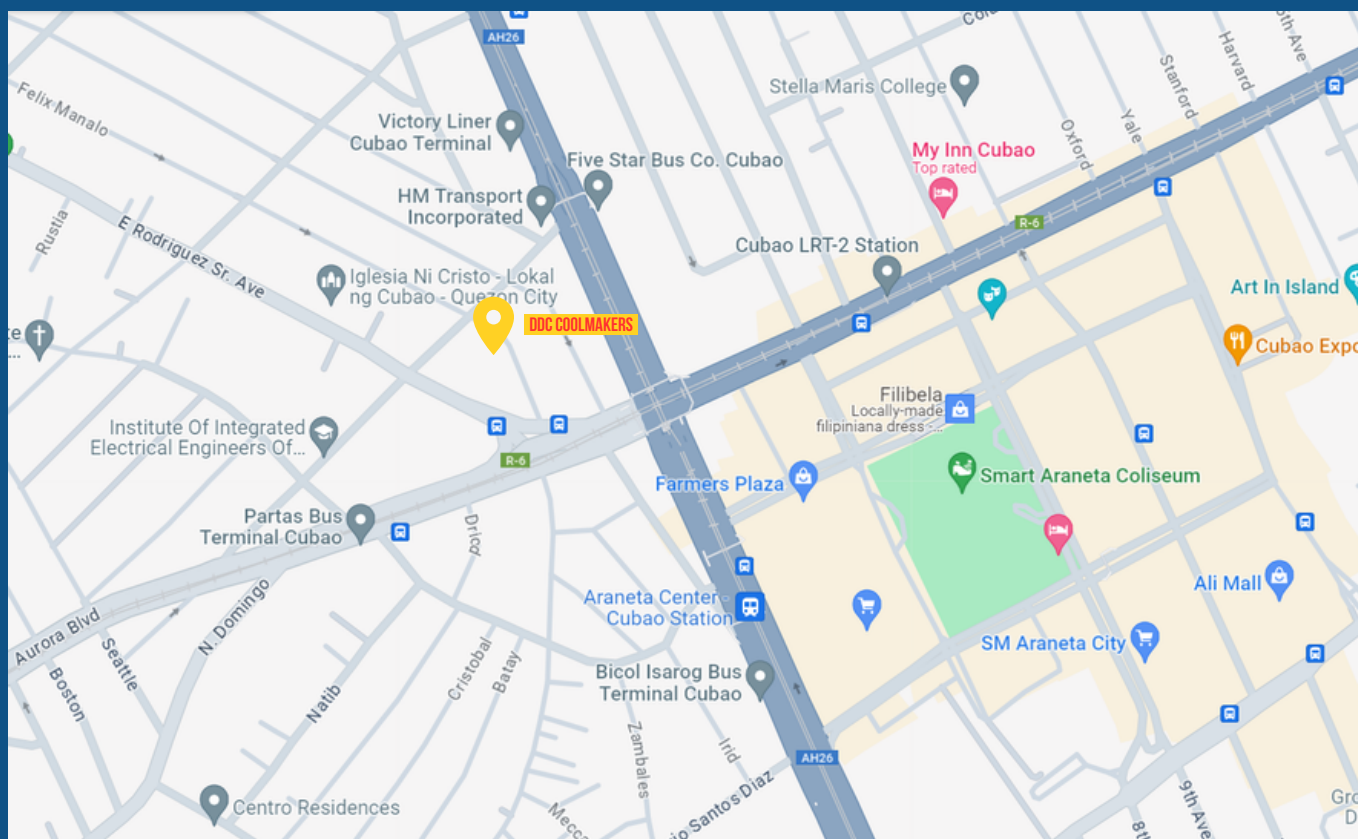

At present, with the trust and confidence of Our customers in terms of quality service and workmanship, DDC COOLMAKERS & POWER BUILDERS CORP. is not only engage in Air Conditioning and Refrigeration but Electro-Mechanical Contracting Dealership, Maintenance, General Construction but Trucking Services as well.

LOCATION

DDC COOLMAKERS' DEVELOPMENT

Nestled in the heart of Cubao, DDC Coolmakers & Power Builders Corp. has been integral to the district's growth. Originating from rural beginnings, Cubao transformed under the Araneta family's influence. Since our start, we've closely aligned with Cubao's development, adapting our services to community needs. From the iconic Araneta Coliseum to commercial hubs like Gateway Mall, our presence mirrors Cubao's progress. Committed to delivering top-notch cooling and power solutions, we contribute to the ongoing success of this dynamic district.

SUBJECT: INSTALLER ACCREDITATION

Dear Mr. Dela Cruz :

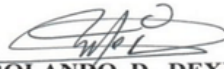

We are pleased to inform you that Concepcion-Carrier Airconditioning Company (CCAC) has approved your application for the above subject. Welcome to the growing network of CCAC Packaged Airconditioning Unit installers. We certainly hope that this development will be mutually beneficial to both our companies.

We are in the process of preparing the "Accredited Installer's Contract Agreement", (execution by both parties to follow), the installation standards (Bluebook) and the list of company policy and guidelines for accredited installers for your own reference and the "Certificate of Accreditation".

Thank you very much for your interest in being one of our partners in the appliance industry and we are looking forward to a lasting business relationship with you.

Very truly yours.

PRODUCTS: AIR-CONDITIONING

Discover the ultimate in air conditioning solutions with DDC Coolmakers and Power Builders Corp. Our extensive range includes renowned brands such as Tosot, Carrier, LG, Condura, Samsung, Koppel, Gree, Daikin, and York. From cutting-edge technology to trusted reliability, we have the perfect cooling solution tailored to meet your every need. Elevate your comfort with the best in the business – choose DDC Coolmakers for a breath of fresh, cool air.

DDC Coolmakers offers a diverse range of air conditioning solutions, including wall-type, window-type, ceiling mounted, cassette duct, and floor mounted units, ensuring a tailored cooling solution for every space.

PRODUCTS: REFRIGERANT

DDC Coolmakers and Power Builders Corp. stands as your comprehensive cooling partner, not only offering a diverse selection of air conditioning solutions such as wall-type, window-type, ceiling mounted, cassette duct, and floor mounted units but also providing top-quality refrigerants, including Solfron, Eufron, Maxx, and Entalpia, to ensure the longevity, efficiency, and optimal performance of your cooling systems.

The refrigerant brands offered by DDC Coolmakers and Power Builders Corp., including **Solfron**, **Eufron**, **Maxx**, and **Entalpia**, are engineered to optimize the efficiency and performance of cooling systems. Solfron ensures stability and environmental friendliness, **Eufron** focuses on energy efficiency, **Maxx** is designed for high-performance applications, and **Entalpia** maximizes thermodynamic efficiency. By incorporating these advanced refrigerants, businesses can reduce operational costs and environmental impact, while households benefit from enhanced comfort and sustainability in their cooling systems.

PRODUCTS: RUBBER INSULATION

DDC Coolmakers and Power Builders Corp. offers a range of cutting-edge rubber insulation solutions, incorporating advanced materials to optimize thermal and acoustic efficiency in HVAC systems. Whether applied in air conditioning units, refrigeration systems, or plumbing installations, DDC Coolmakers ensures the quality and reliability of rubber insulation, providing clients with energy-efficient and durable solutions that meet the highest industry standards.

Elevate your insulation game with DDC Coolmakers and Power Builders Corp.! Introducing top-notch brands like **Aeroflex**, **K-Flex**, **Armaflex**, **Durkflex**, and **Wincell** - our arsenal of premium insulation solutions. From Aeroflex's exceptional flexibility to K-Flex's superior thermal performance, Armaflex's renowned durability, Durkflex's resilience, and Wincell's innovative technology, we've got your insulation needs covered. Boost energy efficiency, prevent condensation, and ensure long-lasting insulation performance. Choose DDC Coolmakers for quality insulation that stands up to the test of time!

PRODUCTS: FIRE PROTECTION

Fire protection is a critical aspect of building safety, and DDC Coolmakers and Power Builders Corp. understands the importance of reliable solutions to safeguard lives and property. Our range of fire protection products encompasses cutting-edge technologies and materials designed to meet the highest safety standards. From fire-rated doors and extinguishers to advanced fire suppression systems, we offer a comprehensive suite of solutions tailored to diverse needs. Trust DDC Coolmakers for top-tier fire protection that prioritizes safety and ensures peace of mind in any residential or commercial space.

Guardian Fire Protection Systems by DDC Coolmakers and Power Builders Corp. – fortify your safety with our cutting-edge solutions. From state-of-the-art fire alarms and suppression systems to reliable extinguishers and fire-resistant materials, we've got your protection covered. Don't compromise on safety—choose Guardian for unparalleled fire protection, ensuring peace of mind for homes, businesses, and beyond. Trust us to be your first line of defense against the unexpected.

PRODUCTS: COPPER TUBE, PIPES AND FITTINGS

Upgrade your plumbing systems with the superior quality copper tubes, pipes, and fittings offered by DDC Coolmakers and Power Builders Corp. Renowned for their durability, corrosion resistance, and excellent thermal conductivity, our copper products ensure long-lasting and efficient performance. From precision-engineered fittings to versatile pipes, our range caters to various applications, guaranteeing reliability in residential, commercial, and industrial settings. Trust DDC Coolmakers for top-notch copper solutions that not only meet but exceed industry standards, providing a robust foundation for your plumbing needs.

Elevate your plumbing game with the best in the business! DDC Coolmakers brings you top-quality copper tubes, pipes, and fittings from trusted brands like **Tescop**, **Daejin**, **Everstrong**, **Comex**, and **Hailiang**. Experience unparalleled durability, corrosion resistance, and precision engineering — choose excellence for your plumbing needs.

PRODUCTS: POLYOLEFIN FOAM INSULATION

Revolutionize your insulation strategy with DDC Coolmakers and Power Builders Corp.'s Polyolefin Foam Insulation. Engineered for superior thermal efficiency and versatility, this insulation solution offers exceptional resistance to moisture, heat, and sound transmission. Whether for residential or commercial applications, trust DDC Coolmakers to provide you with cutting-edge Polyolefin Foam Insulation that ensures energy savings and optimal comfort.

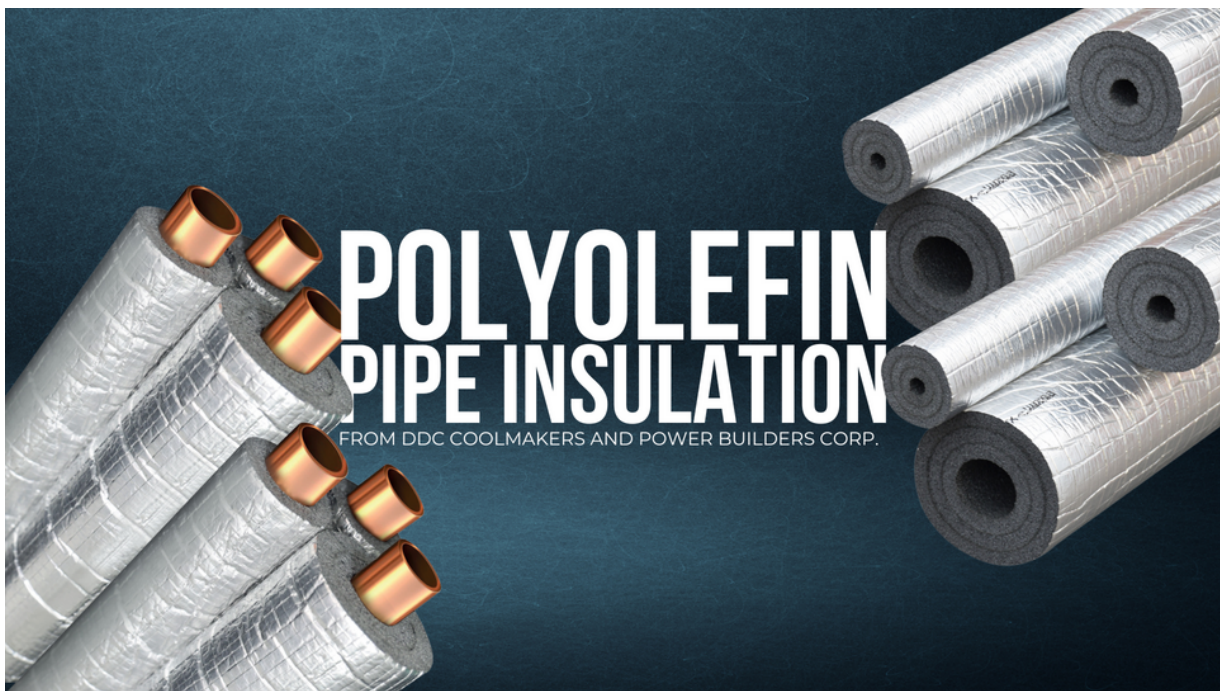

Elevate your insulation game with DDC Coolmakers and Power Builders Corp.'s premier brands – **Ace, Thermobreak, Thermacell, Thermashield, and Evercell** – delivering top-notch insulation solutions tailored to perfection for the unique climate of the Philippines. From Ace's reliability to Thermobreak's cutting-edge technology and Evercell's innovation, our lineup ensures unmatched thermal performance and energy efficiency, making DDC Coolmakers the trusted choice for optimal comfort and savings in your residential or commercial space in the Philippines.

PRODUCTS: POLYOLEFIN PIPE INSULATION

Polyolefin Pipe Insulation serves as a versatile solution for enhancing energy efficiency in plumbing and HVAC systems by preventing heat loss and condensation. Its lightweight design and ease of installation make it an ideal choice for various pipe applications, ensuring a seamless and reliable thermal barrier. Additionally, the material's resistance to moisture and mold further contributes to the longevity and optimal performance of both residential and commercial piping systems.

Elevate your insulation game with DDC Coolmakers and Power Builders Corp.'s premier brands – **Ace**, **Thermobreak**, **Thermacell**, **Thermashield**, and **Evercell** – delivering top-notch insulation solutions tailored to perfection for the unique climate of the Philippines. From Ace's reliability to Thermobreak's cutting-edge technology and Evercell's innovation, our lineup ensures unmatched thermal performance and energy efficiency, making DDC Coolmakers the trusted choice for optimal comfort and savings in your residential or commercial space in the Philippines.

PRODUCTS: ACOUSTIC CEILING BOARD

Acoustic ceiling boards are essential for creating a serene and focused environment in your home, office, or business setting, where urban noise levels and high population density can be challenging. By minimizing sound reverberation and dampening unwanted noise, these boards not only enhance acoustics but also foster tranquility. Investing in acoustic ceiling boards becomes imperative for those seeking a quieter and more comfortable living or working space, ensuring that your home, office, or business benefits from reduced noise disturbances, improved concentration, and overall well-being.

Now is the perfect time to elevate your space with acoustic ceiling boards, and DDC Coolmakers and Power Builders is your go-to destination for both bulk and individual purchases. As we navigate a world filled with constant noise, these boards offer a timely solution to create a tranquil environment in your home, office, or business setting. Don't miss out on this opportunity to enhance comfort and focus—choose DDC Coolmakers for top-quality acoustic solutions that redefine your space. Act now and transform your surroundings into a haven of tranquility!

PRODUCTS: PVC PIPES AND FITTINGS

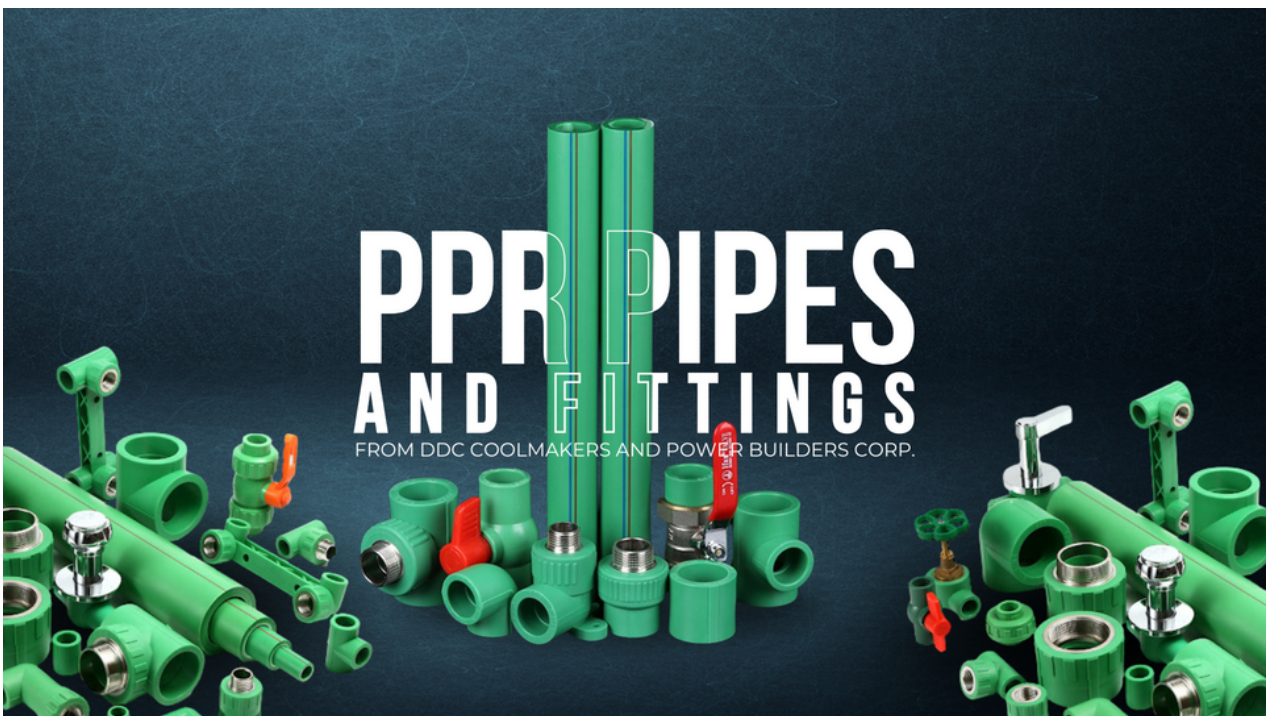

PVC plumbing pipes are used for drain, vent, and waste lines, cold and hot potable waterlines, as well as sewage applications. Their thickness and configurations vary depending on the intended application. PVC pipes are lightweight, easy to work with, and simple to install."

Enhance your plumbing setup with PVC pipes and fittings – the unsung heroes of every well-functioning water system! Lightweight, durable, and corrosion-resistant, they ensure a smooth flow, eliminating plumbing worries. Bid farewell to leaks and rust issues, as PVC pipes and fittings deliver not just efficiency but also peace of mind. It's the smart choice for your plumbing needs!

PRODUCTS: PPR PIPES AND FITTINGS

PPR (Polypropylene Random Copolymer) pipes and fittings serve as the backbone for modern plumbing systems, offering a versatile and efficient solution for transporting both cold and hot water. Crafted for durability and corrosion resistance, these pipes ensure a robust and maintenance-free plumbing infrastructure. The lightweight design and seamless installation of PPR pipes and fittings make them a superior choice for various applications in residential, commercial, and industrial settings, providing not just reliability but also enhanced efficiency in water distribution systems. Whether for new constructions or plumbing upgrades, PPR pipes and fittings stand as a testament to innovation, offering a high-quality solution that meets the diverse demands of modern plumbing.

Attention builders creating the offices of tomorrow! Elevate your plumbing game with DDC Coolmakers and Power Builders Corp.'s exclusive offer on PPR (Polypropylene Random Copolymer) Pipes and Fittings this month. Crafted for elite standards, our PPR solutions redefine reliability and efficiency in plumbing systems. Enjoy the power of seamless installation and peak performance in both cold and hot water applications. Upgrade your office space now and seize the opportunity for superior plumbing with our limited-time offer. Choose excellence, choose DDC Coolmakers and Power Builders Corp.

PRODUCTS: PVC ELECTRICAL CONDUIT PIPES

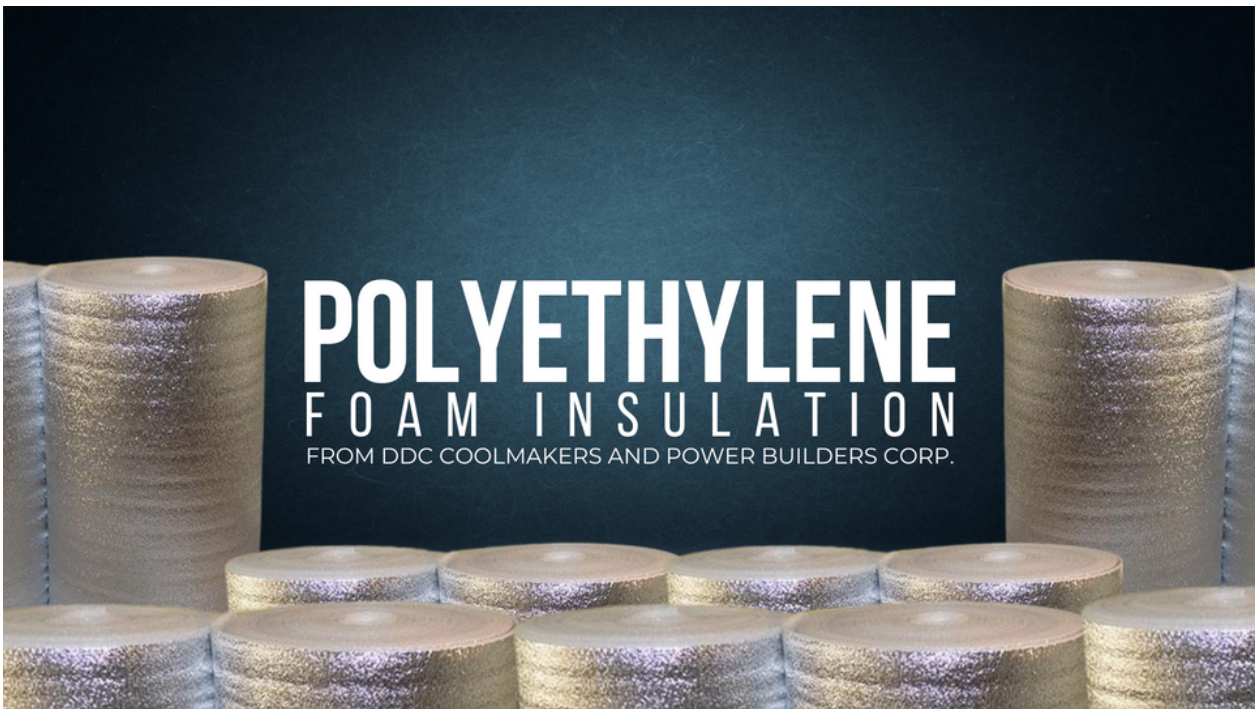

PVC electrical conduit pipes are instrumental in safely housing and protecting electrical wiring, shielding it from external elements and preventing potential damage. Their robust construction and resistance to corrosion make them an essential component in electrical installations, ensuring the longevity and reliability of wiring systems. The use of PVC electrical conduit pipes is paramount in meeting safety standards, preventing electrical hazards, and facilitating efficient maintenance, underscoring their crucial role in creating secure and durable electrical infrastructures.

Elevate your electrical infrastructure with DDC Coolmakers and Power Builders Corp.'s PVC electrical conduit pipes. Our top-quality conduits ensure a secure and durable environment for wiring systems, meeting safety standards and preventing electrical hazards. Choose reliability and longevity for your installations – choose DDC Coolmakers.

PRODUCTS: POLYETHYLENE FOAM INSULATION

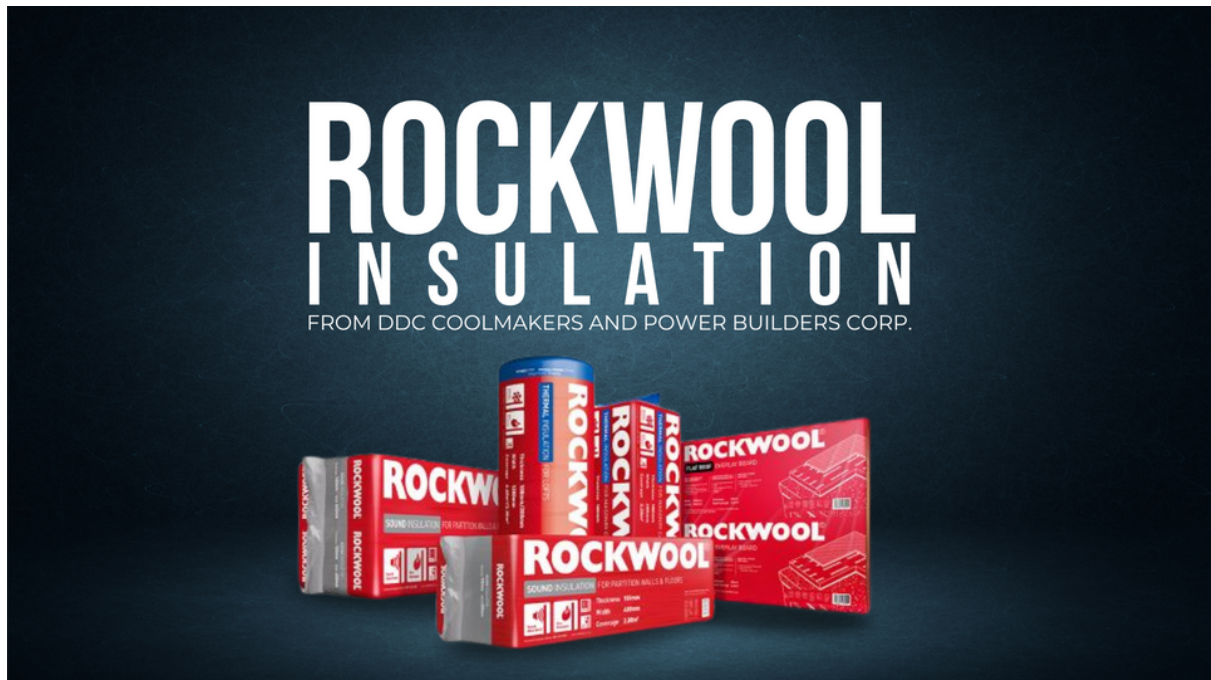

Polyethylene Foam Insulation serves as a versatile and efficient solution for thermal and acoustic insulation in various applications. Its closed-cell structure makes it ideal for preventing heat transfer, ensuring energy efficiency in HVAC systems and buildings. Additionally, the material's sound-dampening properties make it a valuable choice for reducing noise transmission, providing a comfortable and quiet environment in residential, commercial, and industrial spaces.

Elevate your insulation strategy with DDC Coolmakers and Power Builders Corp.'s premium Polyethylene Foam Insulation. Crafted for superior thermal and acoustic performance, this insulation solution stands as the pinnacle of energy efficiency in HVAC systems and buildings. Say goodbye to heat loss and unwelcome noise – choose DDC for top-quality Polyethylene Foam Insulation that redefines comfort and efficiency. Upgrade your space with the best in the business!

PRODUCTS: ROCKWOOL INSULATION

Rockwool refers to a type of thermal insulation made from actual rocks and minerals. A wide range of products can be made from this Rockwool blanket material because of its superior ability to block heat and sound. Rockwool insulation is commonly used in building construction, industrial plants, and in automotive applications.

Elevate your insulation strategy with the transformative power of Rockwool Insulation, proudly offered by DDC Coolmakers and Power Builders Corp. In the scorching heat or cool breeze, ensure your space remains a sanctuary of comfort and efficiency. Choose Rockwool Insulation for its quality and effective protection against temperature extremes, and let DDC Coolmakers guide you in elevating your environment with wisdom and excellence.

PRODUCTS: FIBERGLASS INSULATION

Fiberglass insulation is a material composed mainly of glass. Moreover, fiberglass finds applications in the manufacturing of various products, including automobiles. Functioning as an insulator, fiberglass works to trap air and slow the transfer of heat.

Transform your space with the exceptional efficiency of Fiberglass Insulation, offered by DDC Coolmakers and Power Builders Corp. Crafted from high-quality glass fibers, this insulation solution is designed to elevate your home or business. From maintaining comfortable temperatures to reducing energy costs, choose Fiberglass Insulation for unparalleled thermal performance. Trust DDC Coolmakers to bring you top-notch insulation solutions that redefine comfort and energy efficiency. Upgrade your environment today with the reliability of Fiberglass Insulation

PRODUCTS: FLEXIBLE DUCT

Flexible ducting is a type of ducting pipe that could easily be bent in different angles. This product is made out of flexible materials like polyurethane (PU) and PVC, often with a steel spiral wire to provide even more flexibility. Some products have aluminum insulation layers and even fiberglass insulation added, like the flexible acoustic ducting

Revolutionize your ventilation game with our Flexible Duct – a ducting pipe that bends effortlessly to suit any angle, ensuring seamless installation. Crafted from flexible materials such as polyurethane (PU) and PVC, with a robust steel spiral wire for enhanced flexibility. Elevate your space further with options like aluminum insulation layers and fiberglass insulation in our flexible acoustic ducting. Choose DDC Coolmakers and Power Builders Corp. for top-tier solutions that redefine versatility and efficiency in ventilation systems!

PRODUCTS: POLYURETHANE INSULATION

Polyurethane insulation serves as a high-performance solution for thermal and sound insulation in various applications. Its versatile and adaptable nature makes it ideal for insulating walls, roofs, floors, and pipes in residential, commercial, and industrial settings. The material's exceptional insulating properties contribute to energy efficiency, creating a comfortable and controlled environment while reducing heating and cooling costs.

Transform your living or working space with the exceptional benefits of Polyurethane Insulation, proudly offered by DDC Coolmakers and Power Builders Corp. This high-performance insulation solution is engineered to elevate your environment, ensuring superior thermal and sound insulation. From enhancing energy efficiency to creating a comfortable haven, our Polyurethane Insulation is your key to a space that's not only well-insulated but also cost-effective. Choose excellence, choose DDC Coolmakers – where innovation meets insulation for a brighter, more efficient future!

PRODUCTS: B.I. AND G.I. PIPES AND FITTINGS

B.I. (Black Iron) pipes and fittings are commonly used for non-potable water and industrial fluid transportation in settings like manufacturing plants. G.I. (Galvanized Iron) pipes and fittings, with their corrosion-resistant coating, find widespread use in residential and commercial construction for potable water supply lines and outdoor applications. The choice between them depends on specific application requirements and environmental conditions.

Elevate your construction and plumbing projects with the reliability of our B.I. (Black Iron) and G.I. (Galvanized Iron) Pipes and Fittings, exclusively from DDC Coolmakers and Power Builders Corp. Crafted for durability and versatility, our B.I. pipes are perfect for industrial fluid transport, while the corrosion-resistant G.I. pipes ensure a robust solution for potable water supply lines. Choose excellence, choose DDC Coolmakers – where quality meets innovation, ensuring the success of your projects. Upgrade with us today for pipes and fittings that stand the test of time!

PRODUCTS: VALVES FOR PLUMBING AND FIRE PROTECTION

Valves serve a vital role in plumbing systems by regulating water flow, providing isolation for maintenance, and controlling temperature and pressure. In fire protection, valves act as emergency shut-off devices, distribute water to suppression systems, and maintain consistent pressure for effective firefighting. Whether in plumbing or fire protection, valves are essential components ensuring system functionality, safety, and rapid response capabilities.

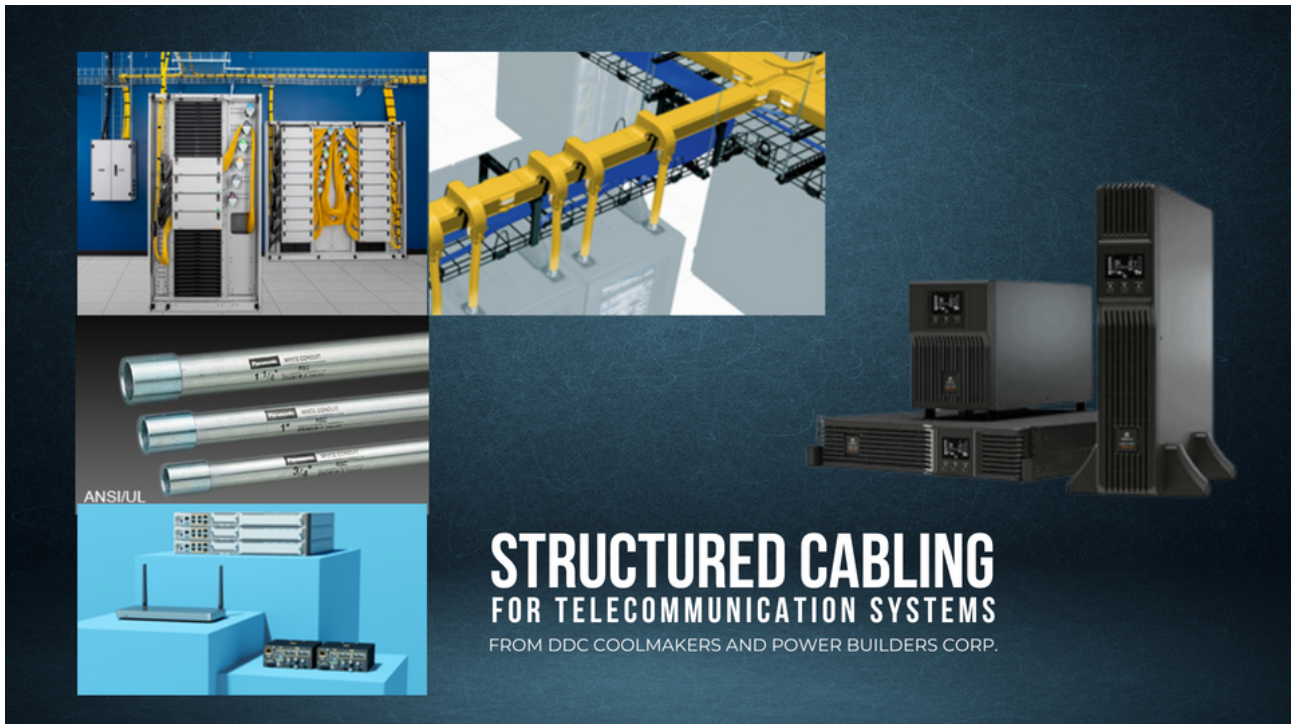

Elevate your plumbing and fire protection systems with the precision and reliability of our high-quality valves, exclusively from DDC Coolmakers and Power Builders Corp. From regulating water flow and ensuring efficient distribution to emergency shut-off capabilities and pressure control, our valves are crafted to meet the diverse needs of both plumbing and fire protection applications. Choose excellence, choose DDC Coolmakers – where innovation meets reliability, ensuring the safety and optimal performance of your systems. Upgrade with us today for valves that stand the test of time!

PRODUCTS: STRUCTURED CABLING FOR TELECOMMUNICATION SYSTEMS

Cables: Fiber and Copper

Conduits: PVC, EMT, IMC, and RSC

Network Elements: Routers, Switches, Access Points, Data Cabinets, UPS, WMS

A properly designed and implemented cabling infrastructure is a fundamental asset of every business. Carefully planning a structured cabling solution facilitates the delivery of new services, lowers network maintenance costs, and increases productivity. New high-bandwidth applications enable organizations to better fulfill their need for productivity and innovation in a rapidly changing world.

PRODUCTS: CCTV/SECURITY MANAGEMENT SYSTEM

With an end-to-end surveillance solution, you can rest easy. Regardless of your business needs, you're well-protected against intruders, break-ins, vandalism, and anything else coming at you.

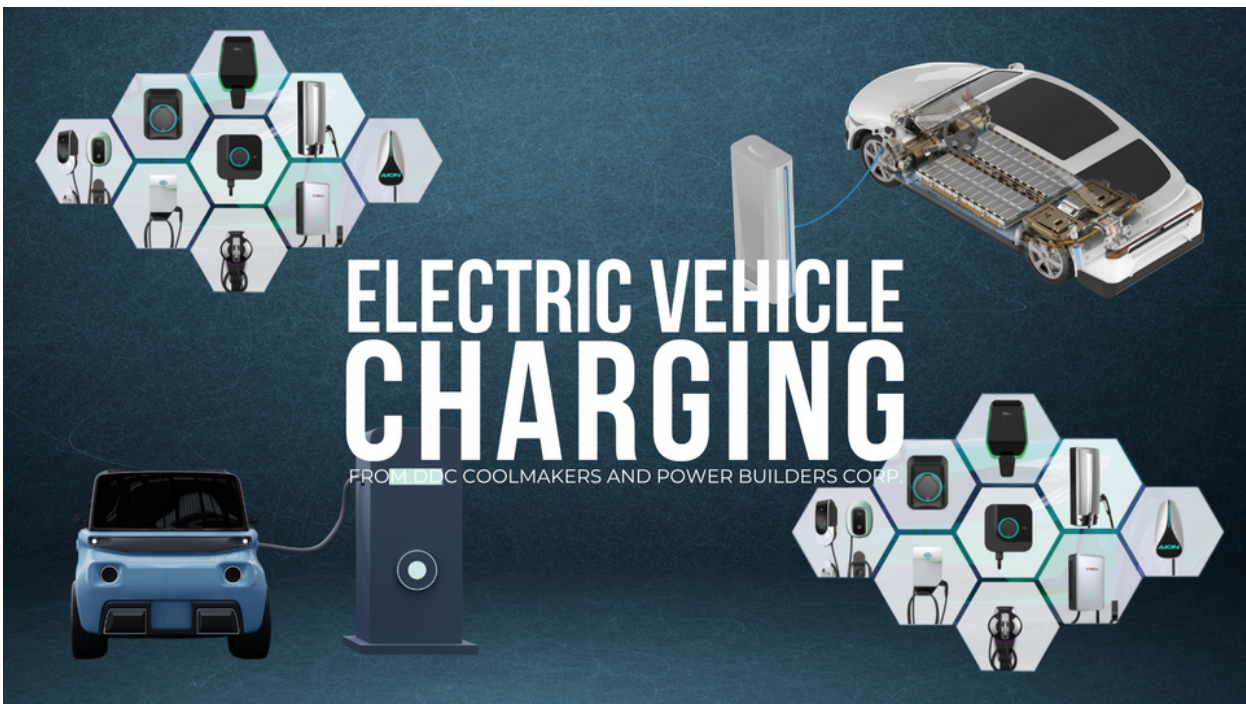

"End-to-end" means you buy a complete security system tailored to your specific needs. It can include both cameras and other networked security devices – all watching over your premises, day and night. And all thoroughly tested and validated for reliable operation. At the heart of the system, the video management software coordinates the operation of all other components and makes them easy to use. World-renowned brands for network surveillance cameras come in a wide variety of versions: Fixed outdoor cameras, discrete dome cameras, panoramic cameras, positioning cameras that follow an unwanted activity – even thermal cameras that can see in complete darkness. They will all see what needs to be seen.

All in all, your end-to-end surveillance solution will keep your business protected – no matter what. And you're free to combine the various components as you see fit, today and in the future. As you grow, or your needs change, so will your system.

PRODUCTS: ELECTRIC VEHICLE CHARGING

Empower your journey into the future with eV Charging, your trusted partner in Electric Vehicle (EV) Charging solutions. As a pioneer in sustainable transportation infrastructure, partnered with Ayala and AC Mobility, we specialize in designing, installing, and managing state-of-the-art EV charging systems. Our commitment to green mobility is reflected in our cutting-edge technologies, ensuring efficient, reliable, and accessible charging solutions for electric vehicles of all makes and models. Join us in driving the charge towards a cleaner, more sustainable tomorrow.

PRODUCTS: SOLAR PANEL AND CONTROLLERS

Illuminate your path to a sustainable future with [Your Company Name], a leading provider of Solar Panels and Controllers. At the forefront of renewable energy solutions, we offer state-of-the-art solar technology to harness the power of the sun. Our solar panels are designed for maximum efficiency, durability, and environmental impact, enabling you to generate clean, renewable energy for your home or business.

Complementing our solar panels, our advanced controllers optimize energy production and storage, ensuring seamless integration into your power system. Whether you're looking to reduce your carbon footprint, lower energy costs, or achieve energy independence, DDC Coolmakers & Power Builders Corp. is your dedicated partner in shaping a brighter, cleaner, and sustainable future through innovative solar solutions

SUNPOWER® **Panasonic** *sunways*

PRODUCTS: WIRELESS MICROWAVE RADIO NETWORK

Step into the future of connectivity with Point-to-point or Point-to-Multipoint cutting-edge Wireless Microwave Network solutions. As a trailblazer in telecommunications, we specialize in designing, deploying, and managing high-performance wireless microwave networks that redefine the standards of rapid, reliable, and secure data transmission when cabling is not feasible.

Our innovative solutions leverage state-of-the-art technology to deliver seamless connectivity in even the most challenging environments. From point-to-point links to complex mesh networks, this technology empowers businesses with the speed, efficiency, and scalability needed to stay ahead in the digital era. Elevate your network capabilities with our Wireless Microwave Network services and experience a new dimension of connectivity excellence.

PRODUCTS: BUILDING MANAGEMENT SYSTEM

Customized BMS Solutions: We understand that each building has its own set of requirements. Our team collaborates with clients to design and implement BMS solutions that align with their specific needs, whether it's for commercial spaces, residential complexes, healthcare facilities, or industrial plants.

Integration Services: Our expertise extends to integrating diverse building systems, including HVAC, lighting, security, and energy management, into a unified and intelligent BMS platform. This integration allows for seamless control and monitoring, fostering a cohesive and responsive building environment.

Energy Efficiency: We are passionate about promoting sustainability and energy conservation. Our BMS solutions are designed to optimize energy consumption, reduce operational costs, and minimize the environmental impact of buildings.

Remote Monitoring and Control: Stay in control of your building's operations from anywhere. Our BMS solutions provide remote monitoring and control capabilities, ensuring that you have real-time access to critical data and the ability to make.

PRODUCTS: FIRE DETECTION AND ALARM SYSTEM

Customized Solutions: Recognizing the diversity of buildings and industries, we design bespoke fire detection and alarm systems that address specific challenges and requirements. Our solutions cater to various sectors, including commercial, industrial, residential, and institutional spaces.

State-of-the-Art Technology: We leverage the latest advancements in fire safety technology to provide intelligent and responsive systems. Our solutions integrate cutting-edge detectors, sensors, and alarm devices to ensure swift and accurate fire detection.

Compliance and Standards: We are committed to maintaining the highest standards of safety and compliance. Our team is well-versed in local and international fire safety regulations, ensuring that our solutions not only meet but exceed industry standards.

24/7 Monitoring: Enhance the effectiveness of your fire safety infrastructure with our 24/7 monitoring services. Our systems are designed to provide real-time alerts and notifications, allowing for immediate response in the event of an emergency.

Honeywell

HIKVISION®

PRODUCTS: PUBLIC ADDRESS AND BACKGROUND MUSIC SYSTEM

Customized Audio Solutions: Recognizing the unique requirements of each setting, we craft bespoke PA and Background Music Systems to suit your specific needs. Our solutions seamlessly integrate with your architecture and operations, providing clear and immersive audio experiences.

Innovative Technology: Stay ahead with our use of cutting-edge audio technologies. Our systems incorporate the latest advancements in audio engineering, ensuring crystal-clear sound quality, reliable performance, and intuitive controls.

Scalability: Whether you're a small business or a large enterprise, our solutions are scalable to accommodate the size and complexity of your space. From single-zone setups to complex multi-zone configurations, we have the expertise to meet your requirements.

Integrated Control: Take command of your audio environment with user-friendly control interfaces. Our systems allow for easy management of announcements, background music, and scheduling, putting you in control of the auditory atmosphere.

PRODUCTS: AUDIO VIDEO ENTRY PHONE/INTERCOM SYSTEM

Customized Intercom Solutions: Recognizing the unique requirements of each client, we design and implement tailor-made intercom systems. Whether you need a simple point-to-point communication system or a sophisticated multi-zone setup, our solutions are crafted to meet your specific needs.

Integration and Connectivity: Our intercom systems are designed to seamlessly integrate with other security and communication systems, providing a comprehensive and unified solution for your space. Experience enhanced control and convenience with interconnected technologies.

Advanced Technology: Stay ahead in communication technology with our use of cutting-edge intercom solutions. Our systems feature high-quality audio, video capabilities, and user-friendly interfaces, ensuring efficient and reliable communication.

Access Control Integration: Elevate your security measures by integrating access control features into your intercom system. Control and monitor entry points, enhancing the overall safety and security of your premises.

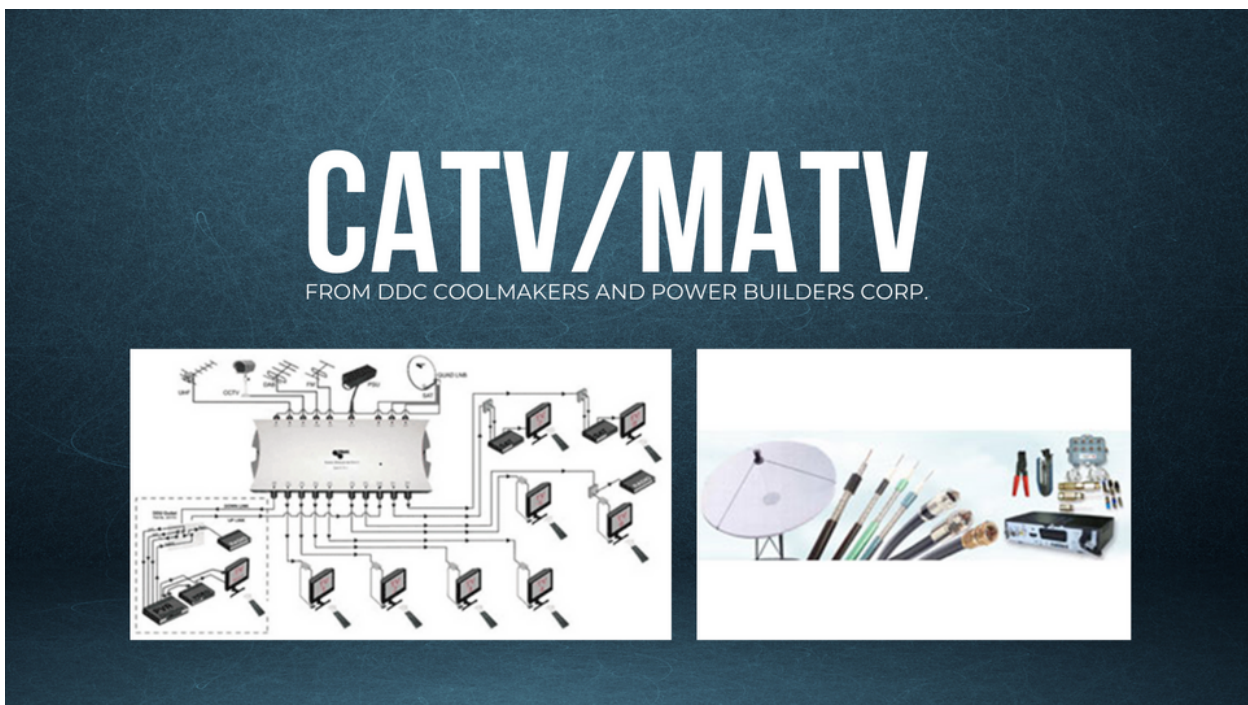

PRODUCTS: CATV/MATV

Customized Distribution Systems: Recognizing the unique requirements of each client, we design and deploy CATV and MATV distribution systems that cater to specific needs. Whether it's for a residential complex, hotel, hospital, or educational institution, our solutions are tailored to deliver optimal performance.

High-Quality Signal Distribution: Our CATV and MATV solutions ensure the efficient and reliable distribution of television signals, providing crystal-clear reception and a wide range of channels. Experience superior picture and sound quality with our advanced technology.

Integration and Scalability: Our systems are designed to seamlessly integrate with various multimedia platforms and can be scaled to accommodate future expansions. Enjoy the flexibility of expanding your channel offerings or upgrading your system to meet evolving needs.

Ongoing Support and Maintenance: Beyond installation, we provide ongoing support and maintenance services to ensure the continuous and reliable operation of your CATV and MATV systems. Our team is dedicated to prompt resolution of any issues that may arise.

PRODUCTS: BEDSIDE CONTROL PANEL (ROOM AUTOMATION SYSTEM)

Smart Lighting Control:

Illuminate your space with precision and efficiency. Our smart lighting solutions offer customizable settings, energy-saving features, and the ability to create ambiance tailored to any occasion.

Climate Control:

Experience comfort at its best. Our climate control systems allow you to regulate temperature and humidity levels with precision, ensuring a cozy and energy-efficient environment.

Automated Blinds and Curtains:

Elevate your space with automated window treatments. Enjoy the perfect balance of natural light and privacy with our intelligent blinds and curtains.

Security Integration:

Keep your space secure with our comprehensive security solutions. Integrated cameras, sensors, and access control systems provide peace of mind, allowing you to monitor and control your space remotely.

Entertainment Systems:

Immerse yourself in a world of entertainment. Our room automation solutions seamlessly integrate with audio and visual systems, offering a personalized and immersive experience.

Smart Home Integration:

Connect all your smart devices under one ecosystem. Our systems are compatible with popular smart home platforms, allowing you to control and monitor your entire home with ease.

PRODUCTS: SECURITY AND ACCESS CONTROL CONSTRUCTION SERVICES

We understand that security is paramount in today's dynamic world. With a focus on innovation and a commitment to excellence, we specialize in providing turnkey security and access control solutions for a diverse range of construction projects. Our team of experts combines technical expertise with a keen eye for design, ensuring that our solutions not only provide top-notch security but also seamlessly blend into the overall architectural vision.

Access Control Systems:

Implementing state-of-the-art access control solutions tailored to your specific needs. Our systems include biometric access, key card entry, and proximity card systems to ensure only authorized individuals have entry.

Surveillance Systems:

Securing your premises with advanced surveillance technology. Our comprehensive CCTV and video surveillance systems provide real-time monitoring and recording, enhancing overall security.

Intrusion Detection:

Safeguarding your construction site against unauthorized access. Our intrusion detection systems utilize cutting-edge sensors and alarms to provide a robust layer of protection.

Perimeter Security:

Establishing a secure boundary around your construction site. Our perimeter security solutions include fencing, gates, and sensors to deter and detect any potential threats.

Security Consultation and Planning:

Collaborating with architects and project managers to integrate security measures seamlessly into the construction process. Our team provides expert consultation from project inception to completion.

PRODUCTS: WMS (WIRELESS MANAGEMENT SYSTEM)

Wireless Network Design and Implementation:

Tailored solutions for optimal wireless network design and seamless implementation, ensuring robust connectivity throughout your premises.

Network Monitoring and Optimization:

Proactive monitoring and real-time optimization to ensure peak performance, reliability, and adaptability of your wireless network.

Security and Access Control:

Implementing advanced security measures to protect your wireless infrastructure. Our solutions include encryption, access control, and threat detection to safeguard against potential risks.

Device Management:

Streamlining the management of connected devices. Our system allows for centralized control, configuration, and monitoring of all devices on your wireless network.

Scalability and Future-Proofing:

Designing systems that can scale with your business needs. Our solutions are built to adapt to evolving technologies, ensuring longevity and future-proofing your investment.

PRODUCTS: METAL AND ACRYLIC FABRICATION

Custom Metal Fabrication:

Crafting unique metal structures and components tailored to your specifications. Our expertise spans a wide range of metals, ensuring durability and precision in every piece.

Acrylic Design and Fabrication:

Bringing transparency to brilliance, we specialize in creating stunning acrylic structures and displays. From signage to decorative elements, our acrylic fabrication adds a touch of modern elegance.

Architectural Metalwork:

Enhancing the architectural landscape with our bespoke metal solutions. Our team collaborates with architects and designers to create distinctive and functional metal elements that seamlessly integrate into any space.

Prototyping and Conceptual Design:

Transforming ideas into reality. We offer prototyping and conceptual design services, allowing clients to visualize and refine their concepts before fabrication begins.

Metal Finishing and Coating:

Providing the perfect finish for your metal creations. Our expertise includes various finishing techniques and coatings to enhance aesthetics and ensure durability.

METAL AND ACRYLIC FABRICATION FROM DDC COOLMAKERS AND POWER BUILDERS CORP.

PRODUCTS: MEDICAL SUPPLIES, MEDICINE, AND EQUIPMENT

Medical Supplies:

A comprehensive range of medical consumables, disposables, and accessories that meet the stringent requirements of healthcare professionals. Our supplies include personal protective equipment (PPE), wound care products, and diagnostic tools.

Pharmaceuticals:

A diverse portfolio of pharmaceuticals, including prescription and over-the-counter medications. Our commitment to quality assurance ensures the safety and efficacy of every product in our pharmaceutical lineup.

Medical Equipment:

State-of-the-art medical devices and equipment designed to enhance diagnostic accuracy, treatment efficiency, and patient care. Our offerings cover a wide spectrum, from diagnostic imaging equipment to patient monitoring devices.

Healthcare Furniture:

Providing ergonomic and durable furniture solutions for healthcare settings. Our range includes hospital beds, examination tables, and other furniture designed to meet the unique needs of medical facilities.

Consultancy and Training:

Collaborative consultancy services for healthcare facilities, helping them optimize their processes and implement the latest technologies. We also offer training programs to ensure the effective use of our products and services.
